

Activities that teach PATTERNS & ALGEBRA

CONTENTS

1. DESCRIBING PATTERNS

1 - 1	Looking for patterns.....	2
1 - 2	Repeating patterns.....	3
1 - 3	Growing patterns.....	9
1 - 4	Patterns in measurement.....	13
1 - 5	Patterns in geometry.....	16
1 - 6	Patterns in calculations.....	20
1 - 7	Patterns by chance.....	21
1 - 8	Number sequences.....	22
1 - 9	Making generalisations.....	24

2. DESCRIBING LINEAR RELATIONSHIPS

2 - 1	Position in a number sequence.....	26
2 - 2	Going up.....	27
2 - 3	Going down.....	29
2 - 4	Different starting points.....	30
2 - 5	Different rates.....	32
2 - 6	Up from underneath.....	33
2 - 7	Making predictions.....	34
2 - 8	Patterns in linear relationships.....	35
2 - 9	Relating terms to position in a sequence.....	37
2 - 10	Guess my rule.....	39

3. VARIABLES IN LINEAR RELATIONSHIPS

3 - 1	Functions.....	42
3 - 2	Cups and counters.....	44
3 - 3	Tables and chairs.....	45
3 - 4	Toothpick patterns.....	48
3 - 5	Towels and pegs.....	52
3 - 6	Fence posts and railings.....	54
3 - 7	Measuring equal quantities.....	56
3 - 8	Saving up.....	58
3 - 9	Regular payments.....	59

4. THE NUMBER PLANE

4 - 1	Position on a map.....	62
4 - 2	Position on a graph.....	66
4 - 3	Position on a number plane.....	70
4 - 4	In or out?.....	72
4 - 5	Scale.....	76
4 - 6	Discrete and continuous variables.....	78
	Summary.....	80

5. PATTERNS IN LINEAR GRAPHS

5 - 1	Constant or variable rates.....	82
5 - 2	Rates with continuous or discrete variables.....	85
5 - 3	Different rates.....	86
5 - 4	Increasing or decreasing.....	93
5 - 5	The same rate with a difference.....	96
	Summary.....	100

6. PATTERNS IN NON-LINEAR GRAPHS

6 - 1 Repeating patterns.....	102
6 - 2 A constant product.....	105
6 - 3 Increasing by multiplication.....	109
6 - 4 Decreasing by multiplication.....	112
6 - 5 Squaring.....	114
Summary.....	116

7. WORKING BACKWARDS

7 - 1 Guess and refine.....	118
7 - 2 Working backwards from a graph.....	120
7 - 3 Addition and subtraction.....	124
7 - 4 Multiplication and division.....	126
7 - 5 Mixed operations.....	128
7 - 6 Using brackets.....	130
7 - 7 Building-up and backtracking.....	132
7 - 8 What was my number?.....	135

8. ALGEBRA IN SPREADSHEETS

8 - 1 Writing expressions in spreadsheets.....	138
8 - 2 Graphing a relationship from a spreadsheet.....	141
8 - 3 Going up at the same rate.....	143
8 - 4 Going down at the same rate.....	146
8 - 5 Different rates.....	148
8 - 6 Solving linear equations.....	151
8 - 7 Solving non-linear equations.....	155

9. ADDITION AND SUBTRACTION

9 - 1	Making it easier.....	158
9 - 2	Repeated addition.....	160
9 - 3	Adding like terms.....	162
9 - 4	Addition in the abstract.....	165
9 - 5	The sign of a term.....	166
9 - 6	Commuting negative terms.....	168
9 - 7	Repeated subtraction.....	169
9 - 8	Subtracting an addition.....	170
9 - 9	Adding a subtraction.....	172
9 -10	Subtracting a subtraction.....	173
9 -11	Associating differently.....	176
9 -12	Moving into negative territory.....	178
9 -13	Addition and subtraction in the abstract.....	179

9. ADDITION AND SUBTRACTION

9 - 1	Making it easier.....	158
9 - 2	Repeated addition.....	160
9 - 3	Adding like terms.....	162
9 - 4	Addition in the abstract.....	165
9 - 5	The sign of a term.....	166
9 - 6	Commuting negative terms.....	168
9 - 7	Repeated subtraction.....	169
9 - 8	Subtracting an addition.....	170
9 - 9	Adding a subtraction.....	172
9 -10	Subtracting a subtraction.....	173
9 -11	Associating differently.....	176
9 -12	Moving into negative territory.....	178
9 -13	Addition and subtraction in the abstract.....	179

10. MULTIPLICATION AND DIVISION

10 - 1	Making it easier	182
10 - 2	Algebraic factors	184
10 - 3	Associated factors	184
10 - 4	Repeated factors	186
10 - 5	Like factors within a term	187
10 - 6	Multiplying in the abstract	189
10 - 7	Fractions from division	190
10 - 8	Relating division to multiplication	191
10 - 9	Multiplying fractions	192
10 - 10	Commuting multiplication and division	193
10 - 11	Repeated divisions	194
10 - 12	Multiplying by a division	196
10 - 13	Dividing by a multiplication	197
10 - 14	Dividing by a division	198
10 - 15	Multiplying and dividing in the abstract	199

11. ALGEBRAIC FACTORS

11 - 1	Distributing a factor	202
11 - 2	A common factor	204
11 - 3	A common algebraic factor	206
11 - 4	Expanding and factorising	210
11 - 5	Like terms	212
11 - 6	Simplifying expressions	216

12. ALGEBRAIC FRACTIONS

12 - 1	Equivalent fractions.....	218
12 - 2	Distributing a divisor.....	220
12 - 3	Finding a common denominator.....	222
12 - 4	A common algebraic denominator.....	224
12 - 5	Terms with associations.....	225
12 - 6	The inverse of a fraction.....	227
12 - 7	Working with algebraic fractions.....	228
12 - 8	Finding the terms in an expression.....	229

13. EQUATIONS AND INEQUALITIES

13 - 1	Solving an equation.....	234
13 - 2	Simplifying an equation.....	236
13 - 3	Keeping the balance.....	240
13 - 4	The balance method.....	242
13 - 5	More problems to solve.....	247
13 - 6	Finding mistakes.....	252
13 - 7	Special types of equations.....	254
13 - 8	Inequalities.....	255

14. ALGEBRAIC PROOF

14 - 1	Showing expressions are equivalent.....	258
14 - 2	Showing expressions are not equivalent.....	260
14 - 3	Equations with the same solution.....	262
14 - 4	Naming whole numbers.....	263
14 - 5	Calendar numbers.....	264
14 - 6	Think of a number.....	266
14 - 7	How does he do it?.....	268
14 - 8	Proofs using place value.....	270
14 - 9	False proofs.....	272

THE LANGUAGE OF ALGEBRA
